EDITOR: RiN – FUCK racism

So Fuck racism, but first of all, what is racism? It's a damn word! So why is it just a word? Well, 'cause you're told that this is when you hate somebody with a different skin color. But why are there different skin colors and other significant differences in the outer appearance?

Well, proof me wrong but that are just evolutionary advantages to a certain geological challenge. So why do people hate such things? It's 'cause they are feared about the unknown. Ohh I have never seen something like this before. Let's kill it before it harms us. Why do people fear hm? Because this dumb asses where told so and don't think about questioning it.

Why were we told so hm? To make it easy to control us. And why they want this hm? So the really wealthy mother fuckers doesn't have to share their power.

So Imagine every time you read or hear the word racism replace it with fear. I think this would make things quite entertaining.

Proof me wrong or die trying SUCKERS
