EDITOR: **Cremo** – The great debate !!!1!1

Have you ever imagined how frustrating it can be? You're drunk as f*ck, ate a lot and have to somehow unload yo' sh*t. Your run upstairs to your friend's restroom and hope that nobody will interrupt you and then you see it! WTF?

The toilet paper roll is turned around. Not the way you're familiar with. Not the way your parent taught you how to put it on. Your world is suddenly turned up side down. I mean, is this shit normal? The way I'm taught it to be right,- and I'm usually right, the paper roll is supposed to be put on the outside. Why, you might ask? I just have that kinky thought in my head that every time I touch the cold wall that the paper roll is hanging on, is as filthy as that fat fuck that wiped his ass with it before me. Hell yeah! It's nasty as a motherfucker.

If the very moment you read that line made you almost vomit in front of your screen, then we share the same idea of the pure toilet paper that SHOULD hand on the outside, not the inside! This might be not a great deal to you but it makes me sick, when I have to deal with it. It feels hard to write more about it because of the sense of this topic at all. So, what do you think about it, my readers?
